LUX
ILLUMINATION

27

Magical

When the sun goes down and the first stars appear in the sky, the Pirnar entrance also becomes alive. Perfection of form and colour, which inspires during the day, is at night replaced by the beauty of light. In some places the light is softly diffused and elsewhere richly intense LUX lighting creates a completely new feel about your door. For you, as the owner, the entrance becomes a warm invitation into your own home.

At the same time, it gives your visitors a sense of playful refinement which gives rise to ever new sighs of admiration. Only then it seems to us that the house really comes alive.

Unique sunken pull handle 9613 with LUX illumination.

Magical frontal ambient lighting LUX 6949.

Stainless steel protective trim 6203 with discreet ambient lighting LUX.

Attractive inside handle 6022 with LUX illumination.
